

tripadvisor Experiences

We want to let you know of an upcoming change that will impact your prices. Starting today, we will standardize our commission rates by destination and product type.

By doing so, we hope to create a more balanced marketplace with a single minimum commission rate for all operators of your type in your area. A balanced marketplace will allow travelers to focus on the quality and uniqueness of your experience.

What does this mean for you?

- We will adjust the retail price of your product(s) to align with our new commission rates in your destination
- Commission rates may vary for different products and/or destinations
- This will not change the amount you will get paid for bookings
- If your product has an active intro offer or special offer, the retail price will not change until the offer has ended
- No other aspect of your product(s) will be changed
- You do not need to take any action

You can always [review your product\(s\)](#) and adjust the amount you will get paid. Thank you for creating memorable experiences for travelers worldwide!
